

Mathematics 410, Spring 2009 (Section #76675)
Topics in History of Mathematics for Secondary and Middle School Teachers

General Information

Instructor: Jeremy Martin (you can call me either “Prof. Martin” or “Jeremy”)

E-mail: jmartin@math.ku.edu (the best way to contact me)

Office: 541 Snow Hall, (785) 864-7114

Office hours: Monday 1–2, Thursday 11–12, or by appointment

Meeting times: Wednesday, 1:00 – 1:50 PM, 152 Snow Hall

Course description: Math 410 covers selected topics from mathematical history, chosen to provide students with knowledge of major historical developments in mathematics, including individual contributions and contributions from different cultures. These topics will include a historical development of Euclidean and non-Euclidean geometry. Students enrolled in Math 410 must enroll concurrently in Math 409.

Prerequisite: Math 122.

Website: The class website is:

<http://www.math.ku.edu/~jmartin/math410/>

Bookmark the website and check it frequently! You are responsible for all information posted on the website, including announcements, homework assignments, and exam information.

E-mail: I will periodically send class information (announcements, homework hints, etc.) to your KU e-mail account. You are responsible for checking your e-mail regularly so as to receive this information.

Textbook: None. We’ll use a variety of free online resources.

Coursework

Homework: Homework will be due every Wednesday at 5:00 PM, starting on **Wednesday, January 28**. *Late homework will not be accepted.* I’ll post each assignment on the course website at least a week before the due date. You can submit written work in class, bring it to my office (541 Snow), or leave it in my mailbox in the Math Department office (405 Snow). The homework assignments are worth 50% of your grade.

Final project: Each student will carry out a small independent project, due on Tuesday, May 12. There will be no in-class or final exams. The project is worth 50% of your grade.

Administrative Information

Makeup work: If, for some legitimate and unavoidable reason, you are unable to turn in a homework assignment on its due date or to attend the final exam, you must notify me *in advance* to make appropriate arrangements.

Approximate time commitment: This is a 1-credit course, so I would guess that the average student should spend about 2 hours (or more) per week outside of class to get a decent grade.

Incompletes: A grade of I is a rare occurrence and is reserved for cases in which a student has completed most of the course work at an acceptable level, but is prevented from completing the course due to *extraordinary* circumstances. If you think an I may be warranted, you must consult me *before* the final exam. Note that a grade of I cannot be made up by taking the course again.

Drop policy: Drop periods for Spring 2009 are as follows:

Period 1 (through 2/5): you can drop a course and erase it from your record

Period 2 (2/6 through 4/16): you can drop a course and receive a W on your transcript

Period 3 (after 4/16): dropping is no longer permitted Consult the Registrar's website for complete add/drop information.

Academic honesty and collaboration: You are required to abide by all KU policies on academic integrity. Cheating, plagiarism or other academic misconduct will result in a failing grade on the assignment in question, and usually further disciplinary sanctions, possibly including a failing grade in the course.

You are encouraged to collaborate with other students on the homework assignments. However, intellectual honesty requires that each student write up his or her own solutions and acknowledge all collaborators. It is a violation of academic integrity to copy another student's homework, or to let someone else copy yours.

For more information, see the official KU policies on issues involving academic honesty, available online at <http://www2.ku.edu/~unigov/usrr.html#art2sect6>

Students with disabilities: The KU Office of Disability Resources (22 Strong Hall; 785-864-2620 (V/TTY); <http://www.disability.ku.edu>) coordinates accommodations and services for all students who are eligible. If you have a disability for which you wish to request accommodations, please contact Disability Resources as soon as possible. Please also contact me privately in regard to your needs in this course.

Intellectual property: Course materials prepared by the instructor, together with the content of all lectures and review sessions, are the intellectual property of the instructor. Video and audio recording of lectures and review sessions without the consent of the instructor is prohibited. Upon reasonable request, the instructor will usually grant permission to record lectures, on the condition that such recording is used only as a study aid by the student making the recording, and is not modified or distributed in any way.
